ENERGY ASSISTANCE PROGRAMS

From the NH Office of Energy and Planning

FUEL ASSISTANCE PROGRAM

As funds become available, the Fuel Assistance Program (FAP) provides benefits to qualified NH households to assist with heating costs. The FAP can also help households during a heating emergency by securing an emergency delivery of fuel, delaying a shut-off notice, oe referring to another source of assistance.

SISTER PROGRAMS

Sister programs to the FAP are the Electric Assistance Program (EAP) and the Weatherization Assistance Program (WAP), which may be able to help you implement long-term solutions to heating costs.

All these programs are administered by the Office of Energy & Planning, but the local Community Action Agency processes the applications and can help you find out if you qualify.

COMMUNITY ACTION AGENCY:

Community Action Programs
Belknap-Merrimack Counties, Inc
(CAPBMCI)
225-3295

FAP Director:
Robert Ditman
271-2685
robert.ditman@nh.gov
